

The Hakubi Project [Tenure-track Type]

Detailed conditions of available posts publicized in LEADER	
Post No.	A5202
Department	Graduate School of Energy Science
URL	http://www.echem.energy.kyoto-u.ac.jp/index.html
Number of positions	1
Starting date	1st October, 2019
Type of researchers to seek	Department of Fundamental Energy Science, Graduate School of Energy Science, Kyoto University seeks an Assistant Professor (tenure track) in the field of Energy Chemistry. We expect a young researcher who can educate not only Japanese but also increasing international students through lab courses and perform researches recognized internationally, and thus the candidate should be fluent in both Japanese and English languages. The candidate is supposed to understand the philosophy of our graduate school and work in the fields of development of intermediate-temperature lithium and sodium secondary batteries using molten salts and ionic liquids and characterization of fluorine-containing materials based on inorganic chemistry, electrochemistry, and material chemistry.
Research field	Chemistry
Key words	Inorganic chemistry, Electrochemistry, Material chemistry, Secondary batteries, Intermediate-temperature operation, Ionic liquid
Job type	Program-Specific Assistant Professor
Employment Status	tenure-tracking employment
Work Location	Yoshida Honmachi, Sakyo-ku, Kyoto
Advance notice/entry	Necessary
Advance notice deadline	30th June, 2019
Method of advance notice	The candidate is required to apply for "Leading Initiative for Excellent Young Researchers (LEADER)". The documents submitted to the Japan Society for the Promotion of Science should be electronically submitted to the office of Graduate School of Energy Science as electronic data by June 30, 2019.
Compensation, Research environment	Employment condition is in accordance with rules of our university. The candidate who is considered to have made significant achievements during his/her term will be promoted to a tenured position. We will set environment enough for his/her research as that of tenured assistant-professor in our department.
Process,schedule	<ul style="list-style-type: none"> •Submission of Documentation: Submit application forms by 17:00 on June 30, 2019 (Japan time) to Graduate School of Energy Science. •There is a possibility that candidates may be contacted personally. Contact information for candidates is obtained from Japan Society for the Promotion of Science. <p><Selection process(tentative)> Primary selection: Document screening Secondary selection: Interview if necessary The decision of the selection is scheduled sometime in the middle to the end of August.</p>
