2. Research to be Conducted during the Period of Employment

(Please be as succinct as possible. This section must be no longer than 5 pages. You may change the size of the answer field if necessary.)

(1) Title of Research Project

- In this field, please provide the title of your research project within 50 words.

(2) Research Plan (Write concisely in a way that can be easily understood by persons outside your field of specialization.)

- In this field, please describe your research purpose, research plan and methods, necessary research facilities, and any other information that you think would be favourable for your application. Figures and tables may also be included as necessary.

3. Research Achievements

(1) List of Research Achievements and Results

(This section must be no longer than 4 pages. You may change the size of the answer field if necessary.)

- In this field, please list major papers, books published, invited lectures given, awards received, industrial property rights obtained, and so on. Enter them by category (papers, books, invited lectures, awards, industrial property rights, etc.) in reverse chronological order starting with the current year. Number each item for easy identification. Only papers that have been published or accepted for publication should be listed.
- For example, in the case of a published article, please provide the title of the article, author(s), name of the journal, year of publication, volume, and page numbers, and note whether the article was **refereed**. There is no set order or format for listing the publication details, but each of the items noted above must be included.
- If there is more than one author, only include the names of the leading authors. Provide the total number of co-authors with whom your name appears in the list of authors.
